From: Cindy Darling
CALFED Bay-Delta Program

Subject: Draft San Joaquin Technical Team Workshop Report

Enclosed for your review is a preliminary working draft of the workshop report from the joint CALFED/SJRMP Technical Team meeting in Bass Lake on January 15-16, 1997. The final version of this document will be part of the 3-5 year work plan being developed for the CALFED Ecosystem Roundtable. We are requesting any comments on this draft of the workshop report by Monday, March 3, 1997.

In order for us to make maximum use of your comments, please note the following:

- Comments should be as specific as possible, preferably written on a copy of the enclosed document.
- Areas of this draft document requiring further clarification are indicated by question marks. Clarifications you can provide in these areas will be particularly useful.
- A number of projects were not ranked (high, medium, or low) by the entire group, or there was no consensus on their rank. In order to provide more complete feedback to the Ecosystem Roundtable, we would like to get some sense of the relative ranking of these projects. Please provide your input on the rank of these projects, and we will assimilate and report the various rankings of all the reviewers in the final document.
- Several new project summaries were received after the workshop. These have been included in this document, but have not been reviewed or discussed by the entire group. Your ranking and comments on these projects would be appreciated.

All comments should be faxed or mailed to:
